

## **Rules & Regulations and Product Guidelines**

### **2024 Market Season**

#### **Statement of Purpose**

GOOCHLAND FARMERS MARKET - COURTHOUSE (GFM), operated by RVAg, Inc., is dedicated to promoting a sustainable food system in Central Virginia, and to educating people about the connections between sustainable agriculture and the health of the region and its people. GFM favors farmers/growers/producers who farm the land using sustainable agricultural practices or raise livestock using humane and sustainable practices. By providing a direct marketing opportunity to farmers/growers/producers and by providing educational opportunities to consumers, GFM helps sustain the regional farming economy and helps ensure the future of farming in Central Virginia.

#### **Rules and Regulations**

##### **Farmer/grower/producer Eligibility**

GFM recognizes a growing complexity in what producer-only rules mean due to the increasing number of foods at market that require on or off-farm processing and the increase in entrepreneurial strategies that farmers/growers are using to bring regional products to market. GFM regards these activities as indicators of a healthy adaptation due to access to direct markets and part of the process of building a viable local food economy. In making a case-by-case decision about these farmers/growers/producers and their products, GFM will use a balance of factors: quality of product(s), scarcity of product(s) in the market and diversity of product mix in the market.

##### **Producer-Only Requirement and Exceptions**

All products displayed must be produced by the farmer/grower/producer who sells them. A farmer/grower/producer may be an individual, sole proprietorship, partnership, corporation (includes LLCs), or non-profit. The re-sale of agricultural products by farmers/growers/producers is not permitted, unless the product is otherwise unavailable at the Market. In that case, the farmer/grower/producer can purchase that product from another farmer/grower/producer as a supplement under a provisional arrangement. The Market Manager will approve each provisional arrangement, and proof of purchase of the product must be shown. Should another

farmer/grower/producer begin offering that product produced on their farm, the vendor selling the supplemental product under provisional arrangement must stop selling that purchased product. Exceptions can be made to this rule on a case-by-case basis. These cases must be brought to the Market Manager for approval on a weekly basis.

“**Vendor**” may be the actual producing individual, an immediate family member, another producer member, staff or employee of the producing individual’s farm.

“**Region**” is defined as anywhere within the Commonwealth of Virginia.

“**Farmers/growers**” produce either meat or plant-based products on their own farm(s) (or leased property). Farmers/growers may also be considered a producer (see definitions below; e.g., Cheese Maker or Artisan/Crafters).

If you are not a farmer/grower, you may be considered eligible to sell at GFM as a Producer in one of the following categories:

**Baker:** makes freshly baked goods from scratch, using seasonal ingredients from the region as much as possible.

**Cheese Maker:** makes cheese and other value-added products from milk that comes from animals raised on the farmer/grower/producer’s own farm (or leased land where the farm is located).

**Pasta Maker:** makes pasta and sauces from scratch, using seasonal ingredients from the region or a farmer who sells these ingredients at market.

**Soap Maker:** hand crafts soaps and/or other related products using seasonal ingredients from a farmer who sells at market.

**Meat Processor:** primarily operates a food processing facility that processes meat from regional farmers/growers/producers.

**Fisherman/Waterman:** raises or catches fresh fish and shellfish, and uses local processing facilities for seafood products to be sold at market.

**Specialty:** Other regional agricultural product(s) not currently available from farmers/growers/producers at market that is/are an important specialty crop or product in our region.

**Artisans/Crafters:** must be skilled in a fine art, such as painting, woodworking, glass blowing or other traditional art. GFM management will ensure that a ratio of no more than 25% of farmers/growers/producers are considered artisans/crafters for the full-season.

## **Farmer/grower/producer Application & Market Fees**

The Application Fee for the 2024 market season is \$20. There is an additional \$45 Approval Fee, due prior to vending – upon acceptance into the market.

An additional 10x10 stall may be purchased for the season for \$75, payable in advance. Marketeer Club members pay a one-time \$20 Application Fee for the 2024 market season. No other fees apply to Marketeer Club members. Non-profits attending one market day per month pay a one-time \$20 Application Fee (regular vendor fees may apply to nonprofits wishing to attend weekly).

All farmers/growers/producers will pay \$20 for each week's GFM, payable weekly, unless vendors choose to pre-pay for the season, or pre-pay monthly.

- Vendors can pre-pay for the season (\$18 per market day), OR
- Vendors can pay weekly (\$20 per market day)
- Vendors must pay all scheduled market day fees unless appropriate notice (at least 24 hours prior to market) is given in writing to the market manager - exceptions will be made if the market is canceled by the market manager or at manager's discretion for extenuating circumstances.
- Prepaid fees are non-refundable (even if the market is closed due to weather).

All Application Fees may be paid via Marketspread using a credit card or e-check. **Cash, checks or credit cards can be collected at the market for weekly fees.**

### **Market Fee Structure**

The GFM fee structure is designed as an incentive for the farmers/growers/producers and the market to prosper. Fees pay for liability insurance, market staff, market signage and printed materials, VDACS inspections, market equipment, market educational programs, promotion of the market, and other incidental costs associated with running a business. All farmer/grower/producers participating in GFM will remit weekly market fees to the GFM management on market day or via their Marketspread account. All vendors will be charged for their market fees via Marketspread by the Wednesday following that week's market. All vendors must agree to pay stall fees on time. **If stall fees are not paid on time, market management may assess a \$50 late charge and/or suspension from GFM.**

### **Insurance**

GFM recommends that all farmers/growers/producers carry insurance for general liability and property damage, as well as product liability coverage, in an amount not less than \$500,000. If you have insurance, please list RVAg, Inc. as an additional insured and provide the Certificate of Insurance to the Market Manager

**If you are a Meat Processor**, all farmers/growers/producers whose foods you will be selling at GFM must carry insurance for general liability and product liability of not less than \$500,000. If you as the Meat Processor are providing insurance coverage for these farmers/growers/producers,

a copy of the policy naming those farmers/growers must be provided with your application as proof of insurance coverage.

### **Farm Visits and Inspections**

All farmers/growers/producers are subject to annual farm or business visits and inspections. **All new farmers/growers/producers may be inspected before being approved to sell at GFM.** GFM representatives may inspect any farm or establishment used by its farmers/growers/producers during normal business hours (8:00 am - 6:00 pm) to verify compliance with the producer-only requirement. Such inspections may or may not be announced. The farmer/grower/producer must provide any help necessary to thoroughly document the establishment or property being inspected and the products brought to market and/or listed in the annual application. Failure to permit a farm visit or inspection may result in suspension from GFM. A physical address for the farmer/grower/producer must be submitted with the GFM application.

## **APPLICATION PROCEDURES**

### **Market Application**

All farmers/growers/producers must complete and sign a GFM Application as part of the annual application process to GFM. Applications must be submitted via Marketspread.

### **Farmer/grower/producer Product List**

A current Product List must be submitted with the application to GFM. Only items listed in your completed application can be sold at the GFM. Items not listed will be allowed for sale only with advance approval by the GFM management. Regional sources for value-added or specialty products must be indicated. Applicants can submit their product list via Marketspread.

### **Product Guidelines**

Farmers/growers/producers must abide by all applicable federal, state and local health regulations in the harvest, preparation, labeling and safety of the product(s) they bring to market. Farmers/growers/producers must include a copy of all applicable permits, including those from the health department of the state or county where the products originate, with the GFM application if the farmer/grower/producer plans to sell value-added or other farm products listed below. Products not specifically listed under the GFM Product Guidelines will be reviewed on a case-by-case basis and approved at the discretion of the market management. Contact the VDACS Food Safety Program at (804) 786-3520 for assistance.

### **Low Risk Foods**

According to VDACS Food Laws, "Private homes where the resident processes and prepares candies, jams, and jellies not considered to be low-acid or acidified low-acid food products and baked goods that do not require time or temperature control after preparation if such products are: (i) sold to an individual for his own consumption and not for resale; (ii) sold at the private home

or at farmers markets; and (iii) labeled “NOT FOR RESALE – PROCESSED AND PREPARED WITHOUT STATE INSPECTION.”

**Baked Goods:** No commercial mixes, crusts or flavored fillings may be used. Baked goods to be sold at market should highlight regional produce and seasonal ingredients. Production must comply with local health ordinances, or follow the aforementioned VDACS “Low Risk Foods” guidelines, and the baker must supply GFM with documentation of such compliance.

**Canned Fruits and Vegetables:** Canned fruits and vegetables must be from the farmer/grower’s own produce. If processed off-farm, the farmer/grower/producer must supply to GFM management the name, address and telephone number for the facility where the produce is processed.

**Cider:** Cider must be produced from the farmer/grower/producer’s own or leased orchard, but may be processed off-farm in a facility that ensures the cider is made with the fruit from that orchard. Name, address and telephone number for the mill where the cider is pressed and processed must be provided to GFM management.

**Dried Fruits and Vegetables:** Dried fruits and vegetables must be from the farmer/grower/producer’s own produce and dried on his/her farm. If fruits/vegetables are dried off-farm, farmer/grower/producer must supply relevant contact information.

**Eggs:** Eggs must be from the farmer/grower/producer’s own fowl. **No re-sale of another farmer/grower’s eggs is allowed by any farmer/grower/producer.**

**Fish and Shellfish:** Fish and shellfish must be raised or caught by the fisherman/waterman. Aquaculture must comply with local or federal health ordinances, and the fisherman/waterman must supply documentation of such compliance to GFM management. Fishermen/watermen must hold a commercial fishing license and submit a copy of the license. Name, address and telephone number for any facilities where fish and shellfish is processed must be provided to GFM management. At the discretion of the Market Management, farmers/growers/producers may re-sell fish and/or shellfish if purchased from regional fishermen/watermen. If the farmer/grower/producer re-sells fish and/or shellfish, the farmer/grower/producer must provide GFM management with the name, address and telephone number(s) of the fisherman/waterman from whom the fish and/or shellfish is purchased.

**Flowers, Plants and Trees:** Flowers, plants, bedding plants and trees must be from the farmer/grower/producer’s own farm or greenhouse. No re-sale of flowers, plants and/or trees will be allowed by any farmer/grower/producer.

**Frozen Fruit Products:** Frozen fruit products (e.g., sorbets) must be made by the farmer/grower/producer. Flavoring agents (e.g., fruits) must be from the farmer/grower's own production or purchased from regional or GFM farmers/growers/producers. Frozen fruit products should highlight regional produce and seasonal ingredients. Exotic, out of region, flavorings (such as vanilla) may be purchased and used minimally and only as necessary in the product. No commercial products or mixes may be used. Production must comply with local health ordinances and licensing and the farmer/grower/producer must supply the GFM management with documentation of such compliance.

**Grain Products:** Pasta, granola, baking mixes, meal and flour prepared by the farmer/grower/producer or Pasta Maker must be made from fresh and regional produce when available. Exotic, out of region ingredients (such as olive oil) may be purchased and used minimally and only as necessary. No commercial products or mixes may be used. Dried fruit for the granola must be produced by the farmer/grower/producer or purchased from regional or GFM farmers/growers. Eggs for the pasta must be from the farmer/grower/producer's fowl or purchased from regional or GFM farmers/growers/producers. Fillings for the pastas must be from the farmer/producer's own produce or purchased from regional or GFM farmers/growers/producers. Production must comply with local health ordinances, or follow the aforementioned VDACS "Low Risk Foods" guidelines, and the farmer/grower/producer or Pasta Maker must supply GFM with documentation of such compliance.

**Honey:** Honey must be from the farmer/grower's own hives, but may be processed off-farm. The farmer/grower/producer must provide GFM management with the name, address and telephone number of the facility where the honey is processed or the name of the beekeeper who is processing the honey and the location at which it is processed.

**Meats and Meat Products:** All meat products must be 100% from the animals raised from weaning by the farmer/grower/producer. Animals may be butchered or processed off-farm. All meat products sold must carry the identification of the individual farmer/grower/producer and the Meat Processor identification. Processing must comply with local, state and/or federal health ordinances and the farmer/grower/producer must supply documentation of such compliances to GFM management.

**Cheese and Fresh or Frozen Dairy Products:** Cheese, butter and other dairy products (including ice cream, sorbet, gelato, frozen yogurt) must be made by the farmer/grower/producer. Flavoring agents (e.g., fruit or honey) used in the dairy products or cheese must be from the farmer/grower/producer's own farm or purchased from regional or GFM farmers/growers/producers. Production must comply with local, state and/or federal ordinances and licensing; and the farmer/grower/producer must supply GFM management with documentation of such compliance. For Cheese Makers, all milk must be from animals raised on the

farmer/grower/producer's own farm (or leased property). All production must comply with local, state and/or federal ordinances and licensing; and the Cheese Maker must supply GFM management with documentation of such compliance.

**Pestos, Flavored Oils, Mustards and Vinegars:** Pestos, flavored oils, mustards and vinegars must be prepared by the farmer/grower/producer using their own produce. Exotic, out of region, ingredients (such as olive oil) may be purchased. Production must comply with local and state health codes and the farmer/grower must provide GFM management with documentation of such compliance.

**Preserves, Jams, and Fruit Butters, Syrups and Purees, Salsas:** Preserves, jams and fruit butters, syrups or purees and salsas must be prepared from the farmer/grower/producer's own fresh fruits and vegetables. These items may be processed on or off-farm. Production must comply with local or state health codes, or follow the aforementioned VDACS "Low Risk Foods" guidelines, and the farmer/grower/producer must provide GFM management with documentation of such compliance.

**Produce:** All produce, defined as vegetables and fruits, offered for sale at GFM must be 100% grown by the farmer/grower/producer. The re-sale of produce is strictly prohibited.

**Soaps and Herbal Products:** Soaps and herbal products include fresh and dried herbs, creams, spritzers, powders, lip balms and scrubs. These items must be made by the farmer/grower/producer or Soap maker. Soaps and herbal products should highlight regional produce and seasonal ingredients. Exotic, out of region, ingredients (such as oils and essential oils) may be purchased.

**Wool and Pelts:** Wool and pelts must be from the farmer/grower/producer's own animals, but may be carded and cleaned off-farm. No more than 25% of exotic, out of region, fibers may be added to the yarn during processing and spinning. For pelts, animals may be processed off-farm. The farmer/grower/producer must provide GFM management with the name, address and telephone number for the facilities where wool and pelts are processed off-farm. For products made with the farmer/grower/producer's wool, including blankets, socks, mittens, scarves and caps, the farmer/grower/producer must provide information on any processor that is involved in making these products (e.g., where are the blankets being made?) and which products the farmer/grower/producer is making.

**Seasonal Farm Products and Crafts:** Seasonal farm products and crafts produced from materials grown or gathered on the farm by the farmer/grower/producer, such as flower or herb bouquets or wreaths and foraged plant materials are allowed at the market management's discretion. Christmas trees sold at GFM must be grown by the farmer/grower/producer.

**Other Farm Products:** Other farm products sold at the GFM must be homemade of material grown, processed or gathered predominately by the farmer/grower/producer. These products include compost, mulch and custom potting mix.

**Farm-Related Merchandise:** The intent of the GFM is for farmers/growers/producers to sell fresh food. On a case by case basis, we will allow farmers/growers to sell farm-related merchandise (e.g., tee-shirts, caps, cookbooks, note cards with farm scenes). This farm-related merchandise must constitute a small portion of the product mix that the farmer/grower/producer is selling at market. All farm-related merchandise must be shown to the market management for advance approval before selling the item(s) at GFM.

**Specialty Agricultural Products:** At the discretion of GFM Market management, specialty agricultural products may be offered for sale at GFM by a Specialty Producer who has a partnership agreement with a farmer/grower/producer in the region. These products must be a specialty crop grown in Virginia, such as peanuts.

**Prepared Foods:** A limited amount of prepared foods may be approved for sale at GFM, but no foods will be prepared from scratch at market and then sold at market. Farmers/growers/producers may only sell prepared foods (e.g., soup, chili) that are made with ingredients from the region or GFM farmers/growers/producers and are prepared in advance of market in an approved sanitary kitchen facility. Production must comply with state health codes, or follow the aforementioned VDACS “Low Risk Foods” guidelines, and the farmer/grower/producer or producer must provide GFM management with documentation of such compliance.

## **Market Operations and Procedures**

GFM management and/or its volunteers are responsible for administering and enforcing all GFM Rules and Regulations as well as public safety, space assignments, market data collection and market public education programs. Volunteers are trained by GFM management prior to the market season and are instructed to handle and resolve any issues that may arise during the market. GFM management has final authority in resolving issues in a civil and efficient manner.

### **Market Opening and Closing**

Farmers/growers/producers must arrive at least 30 minutes before GFM opens. No farmer/grower/producer may drive into the market site after the market has opened without permission of GFM management. Latecomers may be denied admission at the market management’s discretion. Farmers/growers/producers cannot expect to be able to park or set up if arriving more than 2 hours before the market opens. Farmers/growers/producers must leave the market site as soon as possible after the close of market.

## **Inclement Weather Policy**

It is the authority of GFM management to close a market early or open a market late due to severe or inclement weather. Recognizing it is the mission of GFM to provide a venue for farmers and producers to sell their products, it is also our responsibility to ensure a safe and orderly market environment. GFM management will make decisions to alter market times based on weather reports and on-site market conditions, and will notify vendors by phone, text or email. GFM management will make every effort to notify vendors by noon on the day of the market, and will notify customers on the RVAg website and Facebook pages.

- If we hold a market and it does rain, all vendors who are scheduled to attend that day are required to pay market fees, unless at least 24 hours notice of non-attendance has been provided to the market manager.
- Prepaid vendors may decide for themselves if they want to risk attending the market in poor weather conditions and are not subject to no-show fees. (Prepaid fees are non-refundable. No exceptions will be made for weather related market closures.)

The RVAg staff spends a great deal of time closely monitoring weather before and on market days. We spend time promoting each market, emailing, calling and texting vendors, and fielding calls and emails from customers, rain or shine. RVAg is committed to the success and well being of our producers - we do this for YOU!

## **Reporting Market Sales**

All farmers/growers/producers must report their sales on their Marketspread account, or send an email to the market manager with their gross market sales by the end of the next business day following the market. NO EXCEPTIONS - even if you have prepaid all market fees, you must report weekly sales.

Sales should be reported accurately. Inaccurate or fraudulent reporting jeopardizes the future of GFM and the individual success of every farmer/grower/producer at the markets. Fraudulent reporting or failure to remit weekly market fees may result in fines and a farmer/grower/producer being suspended from GFM.

If farmers/growers/producers fail to report weekly market sales and/or, without prior notice to market management, do not pay market fees in a timely manner (i.e., no later than two weeks after the market sales' date), the farmer/grower/producer may be assessed a late fee of up to \$50, and they may not be permitted to set-up, per market management.

## **Market Attendance**

A minimum attendance of 80% of market days (17 out of 21 weeks) is required to hold the farmer/grower/producer's assigned place at the market. This minimum attendance requirement

may be waived at the discretion of the market management. Farmers/growers/producers not able to attend a market day should notify the Market Manager directly.

Please call, text or email market management if you will miss a market at least 24 hours prior to the market you are going to miss, so the Market setup can be modified and/or the space filled on a temporary basis. If you are delayed and will be arriving late to market, give the Market Manager as much advance notice as you can. All NO SHOWS will be charged the \$20 market day fee.

### **Market Space Assignments**

GFM management retains control of all unassigned space openings. Such spaces will be available to current and new farmers/growers/producers who wish to change the size or location of their space. Requests from current farmers/growers/producers for space assignment changes will be considered before locating new farmers/growers/producers in a market. **Space assignments to new farmers/growers/producers will be made at the market management's discretion** to insure the viability of GFM and the diversity of the marketplace.

### **Farmstand Signage, Canopies, and Maintenance Signage**

Before the market opens, farmers/growers/producers must post prices for all items. GFM highly encourages each farmer/grower/producer to post a farm/business sign at their stand on every market day. The sign should include, at minimum, the farm name, but could also include (for educational purposes) a photo, a brief history and biography on the farm and a description of the growing practices of the farm. The farm or business sign should be mounted on the farmer/grower/producer market tables/tent, or securely and safely anchored to the ground.

### **Market Canopies/Tents/Umbrellas**

All canopies, umbrellas, and other forms of stall cover must be sufficiently\* and safely\*\* secured to the ground, from the moment the canopy is erected at the start of the market day until the moment immediately before it is taken down at the end of the market. If tents are inadequately secured, market management will ask the farmer/grower/producer to take it down and sell without it.

\*Sufficiently means at least 24 pounds per leg for canopies, and at least 50 pounds for umbrellas. (One canopy manufacturer recommends at least 40 pounds on each corner of a 10x10 tent; double that on a 10x20 tent.)

\*\*Safely means that the method used to secure the canopy does not create its own safety hazards:

- Canopy weights should not cause a tripping hazard
- Canopy weights should be tethered with lines that are clearly visible
- Canopy weights should have soft edges to avoid causing scrapes and cuts
- Canopy weights should be securely attached to the canopy

- Canopy weight should be on the ground and not above people's heads.

### **Maintenance and Appearance**

Tables and other fixtures should be in good repair. All produce must be kept off the ground. Market products should be of a high quality. Products that do not meet this quality criterion may be removed at the market management's discretion. Farmers/growers/producers who fail to comply with this requirement are subject to suspension or termination from the GFM.

### **Sanitation**

Farmers/growers/producers must maintain their market stands and spaces in a clean and sanitary condition. Each farmer/grower/producer is responsible for keeping the market area free of any debris. Farmers/growers/producers must remove containers, waste and trimmings before leaving the market site as well as all trash. The market management will be responsible for ensuring that any trash from public traffic at the market sites is properly removed and disposed of at the close of each market day.

### **Market Food Samples**

Food samples must be prepared and presented in a safe and sanitary manner, according to the state Department of Health code and or the Department of Agriculture regulations, and the direction of GFM. The farmer/grower/producer must provide trash receptacles for the disposal of any sampling materials such as cups, spoons or toothpicks.

### **Scales**

Scales used onsite at GFM must be registered as legal for trade and must be certified through VDACS Office of Weights and Measures. Scales must either have a VDACS sticker (indicating they are approved) or certification documentation (vendor should have this documentation at all times). Contact the Office of Weights and Measures at (804) 786-2476 for assistance. Scales must be placed so that they are clearly visible and readable to customers at all times.

### **Sales Tax**

Farmers/growers/producers are required to collect and remit sales tax to the Virginia Department of Taxation. To obtain a State Sales Tax ID number, contact the VA Department of Taxation at (804) 440-2541 and request forms R1. You may also register on-line at [www.tax.virginia.gov](http://www.tax.virginia.gov). **Farmers/growers/producers must provide their sales tax identification number prior to vending at GFM and MUST display a copy of their sales tax certificate at each vendor space at all times.** All farmers/growers/producers must identify GOOCHLAND COUNTY as the locality where their sales transactions occur.

### **Market and Hold Harmless Agreement**

This agreement means that the vendor verifies that all information is accurate and will hold GFM, RVAg, Inc., (and its successors) and Goochland County Employees and Volunteers harmless concerning product liability or other factors that relate specifically to the vendor's business practice.

### **Landlords Waiver & Release of Liability:**

1. I have read and understand, and freely and voluntarily agree to Release and Hold Harmless GFM, RVAg, Inc., (and its successors) and Goochland County, their agents, members and Managers ("Company), and understand that the Release and Hold Harmless Agreement is a waiver of any and all liability(ies).

2. I understand the potential dangers that I could incur in locating my business here. Understanding those risks I hereby release that Company, agents, members, its officers, directors, shareholders, employees and anyone else directly or indirectly connected with that Company from any liability whatsoever in the event of injury or damage of any nature (or perhaps even death) to me or anyone else caused by or incidental to my electing to operate my business on the premises.

3. I understand and recognize and warrant that the Release and Hold Harmless Agreement, is being voluntarily and intentionally signed and agreed to, and that in signing the Release and Hold Harmless Agreement I know and understand that the Release and Hold Harmless Agreement may further limit the liability of the landlord.

### **Market Programs**

**Educational Programs:** All farmers/growers/producers may be asked to participate in occasional programs including artisan and/or chef demonstrations. Farmers/growers/producers may also be asked to participate in additional classroom programs or workshops. Farmers/growers/producers are also encouraged, but not required, to provide market produce to the "Chef at the Market" programs that feature fresh, seasonal recipes prepared by local, regional or nationally known chefs. Produce/products provided for these demonstrations may be donated or will be purchased at cost by GFM.

**Gleaning Programs:** Farmers/growers/producers are encouraged, but not required, to participate in GFM's end of market gleaning program by donating fresh, usable produce or other foods to the nonprofit organizations that may pick up the produce at the end of the market day. All non-profit organizations will make arrangements to glean from the market with GFM staff and agree to follow GFM protocol for handling gleaned produce and products by completing an annual gleaning application.

## **Administration of Rules and Regulations**

### **Advisory Committee to GFM for Rules, Regulations & Product Guidelines**

In order to ensure that the producer-only farmers markets created and operated by GFM continue to promote the viability of agriculture in the Central Virginia region and to remain flexible for emerging situations related to all farmers/growers/producers, an Advisory Committee was created. This Advisory Committee will serve at the direction of GFM management and recommend changes to the GFM “Rules, Regulations & Product Guidelines” on an annual basis.

### **Producer-Only Violations**

Complaints of a suspected violation of the producer-only rule must be brought to the attention of GFM management. The identity of the person complaining shall be kept confidential. The market management may notify the subject of the complaint in writing and confer with market members and others, if necessary, to determine what level of investigation is necessary including a site visit. Farmers/growers/producers refusing to cooperate with a site visit following a suspected violation will be permanently removed from the market. Any farmer/grower/producer who is found to have violated the producer-only rule will receive a warning, temporary suspension, or be permanently removed from the market, depending on the severity of the offense. Any subsequent violation of the producer-only rule will be grounds for removal from the market.

### **Vendor Code of Conduct**

While at the market, vendors are to conduct themselves professionally at all times, exhibiting courtesy toward market staff, customers, other vendors and volunteers. Vendors may not publicly disparage other vendors, products or markets. Customer or market staff questions regarding farming practices or production practices should be answered factually and knowledgeably.

### **Prohibited Activities**

- Hawking is prohibited.
- Leaving your selling space and approaching customers to attempt to draw them to your selling space is prohibited.
- Petition gathering is prohibited.
- Political campaigning is prohibited.
- Raising money for a third party is prohibited unless approved by the Market Manager.
- Sexual harassment or unwanted sexual attention are both prohibited.
- Racist, sexist or negative political remarks will not be tolerated, as well as excessive cursing.
- Grilling or cooking by tent vendors is permitted only if restrictions of the County of Goochland Fire Marshal are met, and it is the vendor’s responsibility to be in compliance. If cooking or grilling on-site, an inspected fire extinguisher is required. Tents that are treated and tagged as flame-retardant are required. Otherwise, all attempts to cook or grill on market days are prohibited.

- Vendors are welcome to bring friendly, leashed and vaccinated dogs, but please be aware that you are responsible for any liability related to your dog.
- Being under the influence of alcohol or illegal drugs is prohibited.
- Smoking of any kind (including electronic cigarettes) is prohibited within the market boundaries. This shall be strictly enforced.
- Music or other broadcasts from radios, stereos, etc. is not permitted unless approved by the Market Manager.

## **COVID-19 Guidelines**

We believe that the Goochland Farmers Market is an essential food resource and our intention is to protect our farmer/grower/producers, and our customers and staff. We have to retain customer confidence that of the many public spaces they will visit, the Goochland Farmers Market farmer/grower/producers and staff are highly attentive to the best sanitary practices. The majority of the items below are things that you should already be doing. To help reassure Goochland Farmers Market customers that our market is a safe place to be, effective immediately, we are enforcing the below processes:

### **For Farmer and Producers**

- If mandated by Virginia State Policy, all farmers/growers/producers MUST wear a face covering at all times, unless eating or drinking. No exceptions .
- Follow simple CDC rules for washing hands and avoid your touching eyes, nose, mouth or face.
- If you have been diagnosed with COVID-19, please let us know immediately.
- If you or one of your workers feel sick, please have that person stay home.
- Vendors should and wash their hands periodically throughout the day, especially before and after eating. Wash your hands for at least 20 seconds and be thorough – soaping up the palms of your hands, the backs of your hands, your wrists, between your fingers
- Sneeze or cough into a tissue or into the crease of your elbow
- To allow for an easily sanitized surface, do not use table cloths or other porous surfaces to prepare customer orders.
- We recommend that you sanitize mobile devices regularly.

### **For Producers Preparing Packaged Food**

Currently there is no evidence of food or food packaging being associated with transmission of COVID-19. Unlike foodborne gastrointestinal (GI) viruses like norovirus and hepatitis A that often make people ill through contaminated food, SARS-CoV-2, which causes COVID-19, is a virus that causes respiratory illness. Foodborne exposure to this virus is not known to be a route of transmission. The virus is thought to spread mainly from person-to-person. This includes between people who are in close contact with one another (within about 6 feet), and through respiratory droplets produced when an infected person coughs or sneezes. These droplets can land in the

mouths or noses of people who are nearby or possibly be inhaled into the lungs. It may be possible that a person can get COVID-19 by touching a surface or object that has the virus on it and then touching their mouth, nose, or possibly their eyes, but this is not thought to be the main way the virus spreads. However, it's always critical to follow the 4 key steps of food safety—clean, separate, cook, and chill – to prevent foodborne illness.
